

Finance 5350: Computational Financial Modeling

Homework 1: Team Introductions & Hello World

Due Date: 09/19/2020 at Midnight

Overview

This is your first homework assignment. There are two parts. In the first part you are responsible for creating a 10-minute slide deck presentation introducing yourself to the class. In the second part you will break into pairs and work on your first `Python` programming exercise: the simple `Hello World` program in a Jupyter Notebook.

Part I

Part II
